

Shirley Mandler gave a very interesting presentation at our February 2009 meeting on how quilt fabric is made, from raw material to the bolts at your local quilt shop. Shirley is a representative for Blank Quilting and owns Surfside Quilting. In the door prize segment of our meeting, she very generously added to our door prizes and donated a fat quarter bundle to the quilt show raffle baskets. And finally, she gave our guild a challenge in which there are two ways to participate in a drawing for a door prize.

1. Anyone who attended her Sunday workshop and completes the top of their "Falling in Love with Curves" quilt, OR anyone designing a block of their own using the creative curves ruler.

OR

2. Anyone completing a project - can be a garment, quilt, wall hanging - using at least 50% Blank fabrics will be entered into the drawing. Quilts and wall hangings have to be at least 48" per side.

Shirley will return to our guild February 2010 to view the challenges and award the prize.
