

CURVACEOUS HOUSES FOR THE PRECISION IMPAIRED

Supply List

REQUIRED

- Straight stitch sewing machine, extra machine needles, extra bobbins
- Rotary cutter, rotary mat (every person should bring these)
- Chalk marker (preferred) or wash-out marker
- Basic sewing supplies, thread, bobbins, pins, seam ripper
- At least 10" square of fusible web, such as HeatNBond Lite, or Wonder Under.
- Fabric (see instructions below)

Instructions for Choosing Fabrics

Please bring only good-quality quilting cottons. Other types fray too much as we sew these curvy seams.

All fabric measurements are approximations. The bigger the pieces, the more free you will feel because you won't be worrying you will run out. Bring an abundance of fabrics that appear "solid", and fewer fabrics with wild or busy prints. (A few wild stripes or polka dots are good to include).

When choosing your borders, remember that each border must have a high contrast in color with the borders on either side of it. For example, if your sky is light, the first border is dark, second border is light, outer background is dark.

The following is the bare minimum of fabric that you would need. (It is better to bring more.)

At least 8 inch square for house

At least 12 inch square for roof

Fat quarter for sky

At least 14" x 6" for grass

1/4 to 1/2 yd for first border (not a fat quarter, must be long)

1/4 to 1/2 yd for second border (not a fat quarter, must be long)

2/3 yd for third border

1-1 1/2 yd. for outer background

Optional: (Will use later) Many scraps for windows, doors, embellishments
